

11th September 2023

Dear Parents/Carers,

At Town End Junior School, we subscribe to two fantastic resources to help pupils in their learning of number bonds, number facts and times table facts; the learning of these facts is absolutely critical, as it allows pupils to move through later stages of their Maths learning with much greater fluency. These resources are called 'TTRockstars' and 'Numbots'. Your child has been given their login details for these accounts (they should be stuck into the back page of their diary), and they have also had the opportunity to explore the resources in their Maths lessons last week.

Although we will put some time into both TTRockstars and Numbots in school, it is incredibly useful if pupils can supplement this with time spent working through the various games and challenges at home. The best way to do this is to put in small chunks of time on a regular basis, and we would greatly appreciate it if you could encourage your child to do this.

Links to access these resources are available in the Maths area of our school website, or by following the link below:

Thank you in advance for supporting your child in these important areas of Maths; if you have any questions about the resources, please do not hesitate to contact their Maths teacher.

Many thanks,

Mr. P Batchford (Maths co-ordinator).
