

## Pupil premium strategy statement

This statement details our school's use of pupil premium funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

### School overview

| Detail                                                                                                          | Data                               |

# Part A: Pupil premium strategy plan

## Statement of intent

We are committed to maximising the impact of the Pupil Premium Grant (PPG) through a long-term strategy that aligns with our Federation Improvement Plan (FIP). This approach allows us to deliver a balanced mix of short-term, medium-term, and long-term interventions and/or support, ensuring that PPG funding supports wider school priorities and enhances pupils' readiness to learn. At the heart of our PPG strategy is the goal of overcoming barriers to learning. We recognise that needs and associated costs vary depending on the specific challenges faced. Therefore, we do not allocate fixed personal budgets to individual pupils in receipt of PPG. Instead, we identify the barriers to be addressed and select the most effective interventions, whether for individuals, small groups, larger cohorts, or the whole school, and allocate resources accordingly.

At Tibshelf Infant and Nursery School, we believe the greatest barriers to learning for pupil premium pupils include:

- Poor attendance.
- Limited life experiences that support academic development.
- Lack of guidance and positive role models.
- Few opportunities to raise aspirations.
- A persistent learning gap between SEND, pupil premium and non-pupil premium pupils.
- Low motivation, often influenced by adverse childhood experiences.
- An increased mental load and SEMH need compared to their peers.
- A high proportion of pupils identified as Pupil Premium are also on the SEND register.

At Tibshelf Infant and Nursery School, we want:

- All groups of learners will have every opportunity to make good progress in knowledge/skills across all subjects.
- Pupils achieving GLD and Phonics pass rate to increase, so that it is at least in line with national averages
- To increase and maintain high levels attendance and punctuality.
- To reduce % of Persistent Absence.
- To ensure learning behaviours are consistently good so that pupils are aspirational and aim high.

To prioritise spending, we have adopted a graduated approach to define our priorities and ensure balance. This approach comprises three categories:

- High-quality adaptive teaching.
- Wider targeted strategies and interventions.
- Specialised support.

When developing and sustaining our pupil premium strategy, our school adopts a graduated approach to:

- **Assess - Diagnose pupils' needs** - we use internal data and information, e.g. attendance data and teacher feedback to gauge the performance of our disadvantaged pupils against national benchmarks and examine what could be hindering their performance.
- **Plan - Use strong evidence to support the strategy** - we utilise a broad array of external evidence to inform decision making alongside the expert knowledge we have of the pupils in our care. We utilise relevant and robust evidence, e.g. from the EEF's pupil premium resources, to provide appropriate and effective solutions.
- **Do - Implement the strategy** - we take time and care to implement our pupil premium strategy to address the challenges and needs of disadvantaged pupils, assess the strategy's effectiveness and address any barriers to successful implementation.
- **Review and Adapt - Monitor and evaluate the strategy** - we continuously monitor the progress of the pupil premium strategy and make adaptations when needed and set short-, medium- and long-term outcomes to reach goals.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

| Challenge number                                      | Detail of challenge                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|-------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1 Aspirational Learning and Role Models               | Many pupils lack intrinsic motivation and engagement, making it harder to sustain focus and enthusiasm for learning. Adults around pupils may not set high enough expectations                                                                                                                                                                                                                                                                                            |
| 2 Parental Engagement                                 | Some families provide limited support for schoolwork, reading, and routines, which impacts progress and consistency.                                                                                                                                                                                                                                                                                                                                                      |
| 3 Early Life Experiences and limited Cultural Capital | Pupils may have missed cultural and developmental experiences (e.g., books, museums, enrichment activities) that build background knowledge. Lack of experiences throughout childhood like visits to zoos, museums, reading at home or clubs reduces vocabulary and general knowledge.                                                                                                                                                                                    |
| 4 Attendance, Lack of Routine and Environment         | Poor attendance and challenging home circumstances such as low literacy, and adverse childhood experiences (ACEs) hinder learning continuity. Morning organisation can be rushed and sometimes pupils do not attend school with appropriate equipment for the day (also preparing for later life). Currently, attendance for Non-PP Pupils: 96% Attendance for PP Pupils: 92.5% (top 40-50% nationally) Attendance for PP with SEND Pupils: 92.8% (top 30-40% nationally) |
| 5 Meeting the ever changing needs of pupils.          | A high proportion of the school is identified as SEND, with 33% of PP pupils also being identified as SEND. Over 70% of SEND primary or secondary need is identified as SEMH need.                                                                                                                                                                                                                                                                                        |

|                     |                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6 SEMH and Outcomes | Our assessments, observations and discussions with parents and pupils indicate that social and emotional needs of pupils hinder their attainment and independent learning skills; friendship, behaviour and academic progress. For some pupils this has resulted in knowledge gaps and social attitudes to learning, leading to pupils falling behind age related expectations. 66% of our disadvantaged children have SEMH needs. |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

| Intended outcome                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | Success criteria                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| To provide opportunities to raise aspirations and develop a sense of belonging to Tibshelf Infant and Nursery School.                                                                                                                                                                                                                                                                                                                                                              | <ul style="list-style-type: none"> <li>- Attendance improves so that the gap between Disadvantaged and Non-Disadvantaged pupils reduce.</li> <li>- There are opportunities for pupils to participate in wider experiences throughout the school year (as a minimum 1 school trip and 1 enrichment activity)</li> <li>- Provide additional activities to develop parent-child relationships</li> <li>- There is a wider range of Pupil Leadership responsibilities in school</li> <li>- There are opportunities for pupils to visit and interact with other pupils and staff within the cluster and wider local area.</li> <li>- All pupils use characteristics of learning skills and Tibshelf federation values as part of their everyday approach to learning. Opportunities for well-being (physical and mental) are embedded through the curriculum</li> </ul> |
| <p>To further develop provision for all pupils so their needs are met and they make at least expected progress.</p> <p><a href="https://www.gov.uk/government/publications/inclusive-mainstream-fund-support-for-school-leaders/developing-an-inclusion-strategy-using-the-inclusive-mainstream-fund">https://www.gov.uk/government/publications/inclusive-mainstream-fund-support-for-school-leaders/developing-an-inclusion-strategy-using-the-inclusive-mainstream-fund</a></p> | <ul style="list-style-type: none"> <li>- Further development of sensory provision including the Nest, Cosy Cabin, Positive Play room, Sensory Baskets and Sensory Circuits.</li> <li>- Classroom reorganisation to reduce sensory overload and create calming environments.</li> <li>- Embed routines that are standardised across the school so pupils know clear expectations</li> </ul>                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

## Part B: Review of outcomes in the previous academic year

### Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2025 to 2026 academic year.

We have analysed the performance of our school's disadvantaged pupils during the 2025/2026 academic year using performance data and our own internal assessments.

To help us gauge the performance of the disadvantaged pupils we compare their performance to the non-disadvantaged pupils alongside national statistics.

Our assessments and observations have shown that there has been a very good increase in the percentage achieving GLD in 2026. In Y1, there has been an increase in the disadvantaged pupils passing the phonics than GLD the year before. However, many of our PP pupils within Y1 are also SEND and face a variety of challenges. We have reviewed our strategy statement and made changes to how we intend to use some of our budget as set out in the Activity in This academic year section above.

| Disadvantaged Data     | School | National |  |
|------------------------|--------|----------|--|
| <b>EYFS % GLD</b>      | 86%    | 54.7%    |  |
| <b>Y1 Phonics EXP+</b> | 29%    | 68.3%    |  |

  

| Focus 2025-2026                                                                                                  | Outcomes                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| All groups of learners will have every opportunity to make good progress in knowledge/skills across all subjects | There has been a very good improved data outcomes for the cohort for GLD and phonics which is near national. Disadvantaged pupils have performed particularly well in GLD outcomes.                                                                                                                                                                                                                                                                                               |
| To support our vulnerable pupils so they can learn effectively                                                   | Creation of the Nest and Cosy Cabin. Personalised learning spaces created for individual children. Introduction of Positive Play programme. Sensory circuits have been introduced and rigorous timetables for children to access sensory areas throughout the day to allow them to keep regulated. There has been a focus on CPD for inclusion led by ISAT at DCC. Attendance has improved (see above data) and children who were on part time timetables are no longer on these. |

|                                                                           |                                                                                                                                                                                                         |
|---------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| To increase the attendance of all pupils especially disadvantaged pupils. | <p>Attendance has improved and is in line or near national. Attendance at July 2026 was 92.5% for PP pupils and 92.8% for SEND and PP.</p> <p>Whole school data was 95% (in top 40-50% nationally).</p> |
|---------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## Externally provided programmes

*Please include the names of any non-DfE programmes that you purchased in the previous academic year. This will help the Department for Education identify which ones are popular in England*

| Programme                           | Provider                      |
|-------------------------------------|-------------------------------|
| Little Wandle Letters and Sounds    | The Wandle Learning Trust     |
| Numbots                             | Maths Circle                  |
| White Rose Maths TA Hub             | White Rose                    |
| Test Base Standardised Assessment   | Merit Testbase                |
| Nurture and Positive Play Programme | DCC Inclusion Support Service |

## Further information

We looked at a number of reports, studies and research papers about effective use of pupil premium, the impact of disadvantage on education outcomes and how to address challenges to learning presented by socio-economic disadvantage. We also looked at studies about the impact of the pandemic on disadvantaged pupils. We used the EEF's implementation guidance to help us develop our strategy, particularly the 'explore' phase to help us diagnose specific pupil needs and work out which activities and approaches are likely to work in our school. We will continue to use it through the implementation of activities.

Our school improvement plan and inclusion strategy are based on inclusion for all as we believe this supports pupil premium students by embedding high-quality, universal teaching and a sense of belonging into everyday classrooms, which reduces stigma and tackles the multiple barriers disadvantaged learners face.

We have put an evaluation framework in place for the duration of our three-year approach and will adjust our plan over time to secure better outcomes for pupils.
